Create Activity

1. Title input (Pulls up autosuggest interface)
2. Location input (pulls up autosuggest input)
3. Date input (pulls up calendar interface)
4. Limit attendees. When clicking on (+) or (-) from ANY, count starts at 1
5. Add description (pops up description interface)
6. Creates event and adds it to gaemplan

Search Activities

The screenshot shows a mobile application interface for searching activities. At the top, there is a header bar with a 'Back' button (1), the title 'Search Activities', and a 'Done' button (2). Below the header are two search input fields: 'Find: Bike r' (3) and 'Near: Current Location' (4). A button with a right arrow (5) is located below these fields. The main content area displays a list of activities:

Bike Ride for AIDS A ride to raise money for. AIDS in..	Today, Apr 13 2:00pm
Potrero Bike Race Race around crissy feild	Thu, Apr 14 11:15am
Bike Rally A parade for bikes!	Fri, Apr 15 12:00pm
Weekly Bike Ride The weekley CS bike ride	Sat, Apr 16 9:00am

Numbered callouts point to specific UI elements: 1 (Back button), 2 (Done button), 3 (Find input field), 4 (Near input field), 5 (Create new activity button), 6 (List of activities), 7 (Event Title), 8 (Events Date), 9 (Event description), and 10 (Event start time).

1. Cancel and return to *Create Activity*
2. Complete and return to *Create Activity*
3. Input Title (this directly changes autosuggest fields below)
4. Location input (switches to location input view)
5. Create new activity button (uses input title from above)
Returns to *Create Activity* with title populated
6. Autosuggested Events based on title and location
7. Event Title
8. Events Date
9. Event description if there is one
10. Event start time

Current Location Drop Pin

San Jose

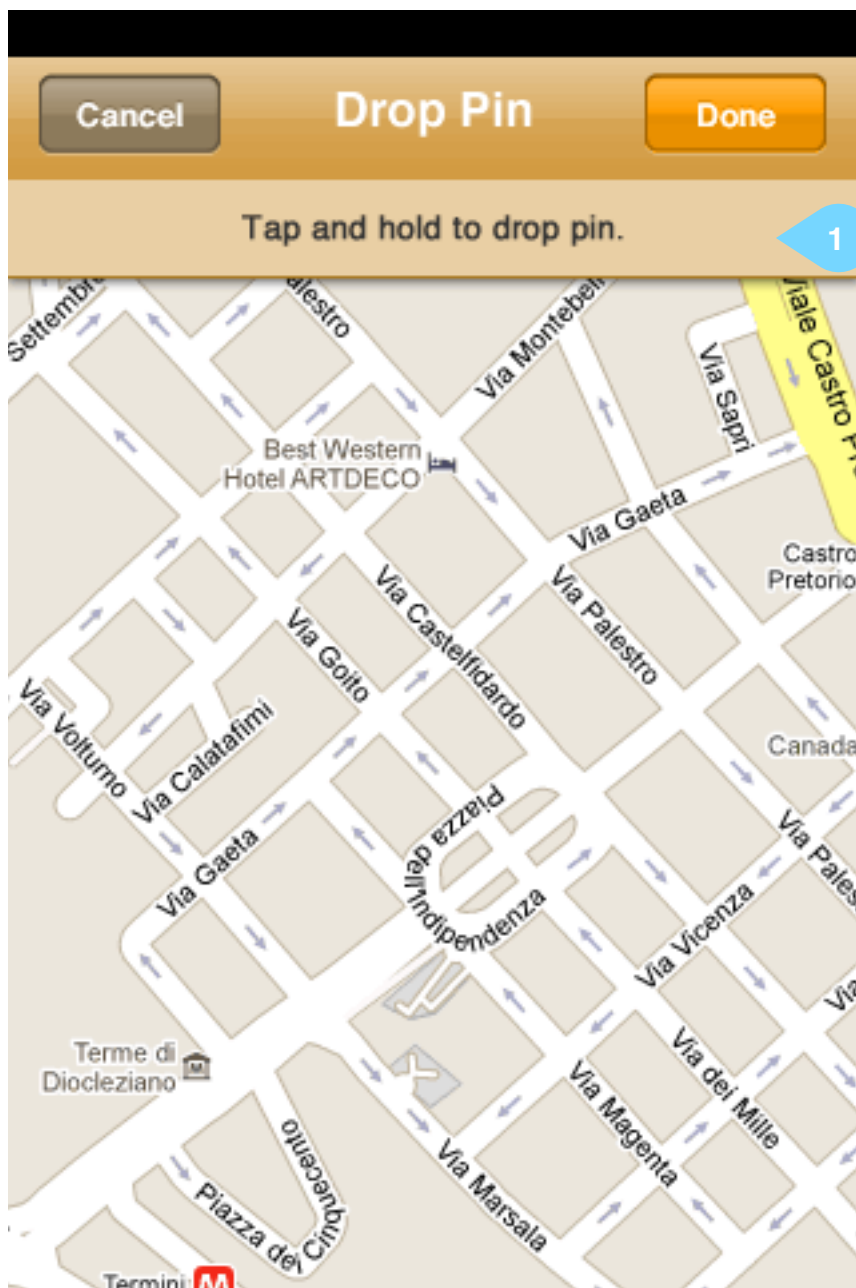

San Bernadino

San Juan de capistrano

San fillipe

Location

1. Toggle Title input
2. Location input (starts as Current Location - allows free form input, and any google map addresses.
3. Allows user to use a map to drop a pin for approximate location
4. Returns input to Current location
5. List starts as recent locations, then becomes an auto complete based on user text input

Drop Pin

1. User can place a pin on a map to give area of activity.

The image shows a 'Date & Time' dialog box with the following components and callouts:

- 1**: Cancel button
- 2**: Done button
- 3**: Starts date and time (Today, Apr 13 2:00pm)
- 4**: Ends date and time (Thu, Apr 19 10:00pm)
- 5**: Calendar grid (April 2011) with a callout pointing to the date 13
- 7**: Time input (2:00pm)

Sun	Mon	Tue	Wed	Thu	Fri	Sat
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	31	1	2	3	4

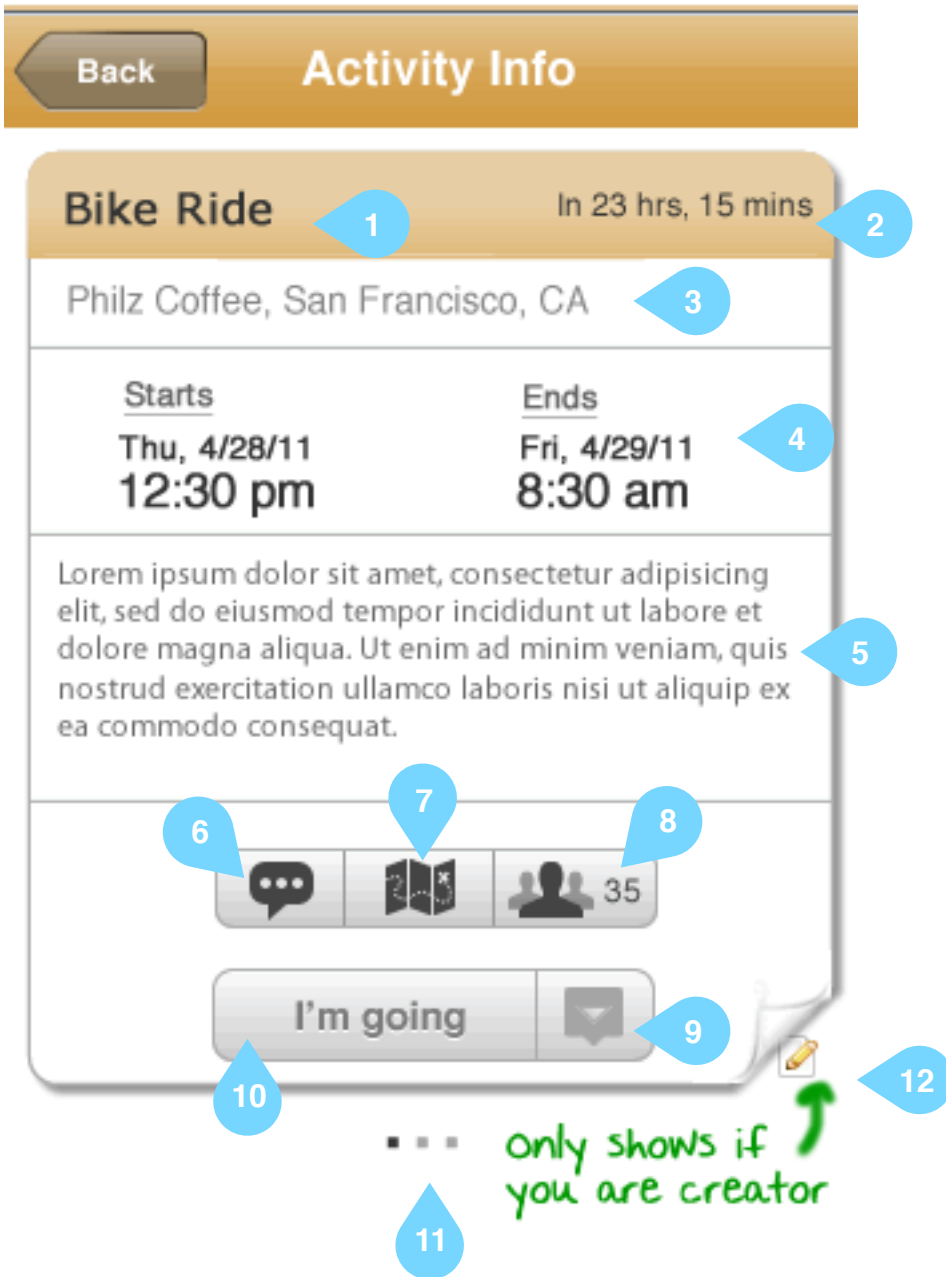

Set Date & Time

1. Cancel and return to *Create Activity*
2. Complete and return to *Create Activity*
3. Start Time (active element is highlighted)
4. End Time (when clicked, becomes highlighted and user inputs end time)
5. Next / Prev month
6. Current Day begins highlighted
7. Time input (when clicked brings up standard time input)

The image shows a mobile application interface for creating an activity. At the top is a brown header bar with three buttons: 'Cancel' (dark brown), 'Create Activity' (white text on brown), and 'Done' (orange). A blue callout bubble with the number '1' points to the 'Cancel' button. A blue callout bubble with the number '2' points to the 'Done' button. Below the header is a white rounded rectangle with a 'Description:' label at the top left. A blue callout bubble with the number '3' points to the right side of this rectangle. The main area of the rectangle is a large text input field with a blue vertical cursor on the left.

Add Description

1. Cancel and go back to create activity interface
2. Finish and add description to activity
3. Input Description text

Card View

1. Activity Title
2. Time till start (Days, hrs, min)
3. Location
4. Start / End Times
5. Description
6. Add Comment Dialog
7. Show event on map
8. Show Attendee list
9. Check in to event (visible if you are in the same location as the event)
10. RSVP Button (highlights if toggled) Adds user to Attendee list.
11. Dots show how many cards are in this list.
12. If is creator, show edit icon which flips the card to edit mode.

Swiping

Left or right navigates between cards

Card View - *Edit*

Same as above, but clicking on field allows for edit.

1. Cancel Activity Button (Prompts for confirmation)
2. Return to normal view and save

A mobile app card view for an activity titled 'Bike Ride'. The card has a light orange header with the title 'Bike Ride' and a duration 'In 23 hrs, 15 mins'. Below the header is a text field containing 'Philz Coffee, San Francisco, CA'. Underneath is a table with two columns: 'Starts' and 'Ends'. The 'Starts' column shows 'Thu, 4/28/11' and '12:30 pm'. The 'Ends' column shows 'Fri, 4/29/11' and '8:30 am'. Below the table is a text field containing 'Lorem ipsum dolor'. At the bottom of the card is a red button labeled 'Cancel Event'. A blue callout bubble with the number '1' points to the 'Cancel Event' button. Another blue callout bubble with the number '2' points to a yellow checkmark icon in the bottom right corner of the card. Below the card is a small black square followed by three small gray squares.

The image shows a mobile app dialog box for adding a comment. At the top is a brown header bar with three elements: a 'Cancel' button on the left, the text 'Add Comment' in the center, and a 'Done' button on the right. Below the header is a white rounded rectangle containing the text 'Got something to say?' and a large text input area with a blue cursor. Three blue callout bubbles with numbers 1, 2, and 3 point to the 'Cancel' button, the 'Done' button, and the text input area respectively.
