Toggle Bar Approach

Can you host? **When?**

| Yes | Maybe | **Not Now** | 📅 |

status can be toggled directly from bar without using drop-down

status "traveling" moved to the travel destination search splash-page.

clicking "yes" or "maybe" automatically opens the calendar tab →

Can you host? **When?**

| **Yes** | Maybe | Not Now | 📅 |

But I'm unavailable on these nights:

◄ May 2012 ►

| Yes | Maybe | **Not Now** | 📅 |

Instead of "not now", you can also choose the specific nights that you can't host.

select "yes" or "maybe" above to open your hosting calendar

ok

clicking the "not now" opens this message to encourage more hosting.

the calendar icon ghosted, until user clicks "ok"
